INFORMATION FOR BRAIN INJURY SURVIVORS

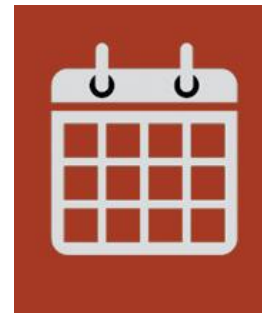

Proper hygiene – including washing your hands for a minimum of 20 seconds – is essential to preventing transmission of coronavirus. Additional preventative steps to take can be found here: [CDC Precautions](#)

Please be aware that chapter and support groups across the state may also be affected by the closing of meeting facilities and further recommendations regarding the size of gatherings to avoid. We encourage you to contact your chapter leader regarding scheduled meetings and alternate means of communication.

In addition to services/resources BIAMI provides, **Michigan 2-1-1** can assist with urgent needs such as food, housing, or paying bills. For more information, please visit www.mi211.org or call 2-1-1.
